

VERNON NATIVE HOUSING SOCIETY

POSITION TITLE: MENTAL HEALTH AND SUBSTANCE USE (MHSU)
COUNSELLING & TREATMENT CLINICIAN
WAGE SCALE: \$87,000/Annum 37.5 hrs/wk
FULL-TIME/NON-UNION

Complex Care Mandate: #

#

Vernon Native Housing Society has created a Complex-Care home for ten Indigenous women. This home will be a new approach to Indigenous focused nursing care, creating a harm reduction program, focused on cultural safety and a trauma informed approach to complex indigenous clients. #

#

General Overview of the Position: #

#

In accordance with established vision and values of the organization, as well as within a client and family centered care model, the Counselling & Treatment Clinician functions as a member of the larger Complex Care Housing team and as a member of a specific multi-disciplinary team whose purpose is to ensure that persons with serious acute mental health problems and /or problematic substance use issues have access to timely, responsive, evidence-based short term treatment and clinical supports across the continuum of available services. #

#

The Counselling & Treatment Clinician provides, at the advanced practice level, assessment, treatment, service coordination, and as required, urgent response to the most complex clients, frequently with co-occurring disorders, who may also have serious functional impairment in the domains of physical health and personal, family, financial, occupational, and social life. The Counselling & Treatment Clinician functions as a primary clinician utilizing a variety of specialized treatment modalities/therapies for individuals, groups of clients and/or their families. #

#

Job Description: #

#

Role and Responsibilities: #

#

1. Provides comprehensive bio/psycho/social services that include a continuum of services designed to optimize clients' recovery and ability to function, including but not limited to:
 - a. providing intake, orientation, crisis stabilization, and comprehensive mental health and substance use in-depth diagnostic assessments using the DSM V Diagnostic Criteria, including those for the most difficult and complex presentations (such as high co-occurring substance use, post-trauma, severe personality disorders, and chronic medical illness or disability);
 - b. bringing advanced practice to the team through case conferencing, modeling and team education in areas such as CBT, DBT, psycho-dynamic individual therapies, family therapy, group psychotherapy, supportive counseling, psycho-educational interventions or other evidence-based treatment modalities, in accordance with professional standards and clinical policies and practices to promote client self-determination, strengthen readiness for change, and improve the client's overall psychosocial functioning;
 - c. interpreting the results of the assessment to identify the primary issues and stage of change; collaboratively planning therapeutic treatment goals with the client;
 - d. implementing treatment plans and evaluating treatment outcomes;
 - e. applying an evidence-based approach to clinical problem solving on an ongoing basis and applying approved research findings in clinical practice; evaluating the results in collaboration with the multidisciplinary team;
