

VERNON NATIVE HOUSING SOCIETY

POSITION TITLE:

REGISTERED NURSE/PSYCHIATRIC NURSE

WAGE RANGE:

\$53.00 – \$56.00 per hour (Non-Union)

HOURS:

Up to 37.5 hours per week combined (Full-Time or Part-Time options available)

Complex Care Mandate:

Vernon Native Housing Society is creating a Complex-Care home for ten Indigenous women. This home will be a new approach to Indigenous focused nursing care, creating a harm reduction program, focused on cultural safety and a trauma informed approach to complex indigenous clients.

General Overview of the Position:

In accordance with established vision and values of the organization, as well as within a client and family centered care model, this position practices in accordance with the standards of professional practice and code of ethics as outlined by the British Columbia College of Nurses and Midwives (BCCNM).

The Registered Psychiatric Nurse functions as a member of the larger Complex Care Housing team and as a member of a designated multi-disciplinary team whose purpose is to ensure that persons with serious severe and persistent mental health problems, and/or problematic substance use and/or development disability issues who may or may not be in crisis have access to timely, responsive, evidence based treatment and clinical supports across the continuum of available services. The Registered Nurse provides assessment, treatment, case management, community support, and as required, urgent response to clients who may also have serious functional impairment in the domains of physical health and personal, family, financial, occupational, and social life. The Registered Nurse functions as a primary clinician utilizing a variety of specialized treatment modalities/therapies for individuals, groups of clients and/or their families.

Job Description:

Role and Responsibilities:

1. Conducts assessments of the client's condition and determines the client's needs, including identifying early symptoms by performing duties such as:
 - a. meeting directly with the clients and observing the client's symptoms,
 - b. working in the client's home, and or social environment, and observing conditions,
 - c. talking to family members and friends, physicians, caregivers, and others when appropriate.
2. Provides bio/psycho/social services in the assigned clinical area(s) that include a continuum of options designed to optimize clients' recovery and ability to function by performing duties such as:
 - a. providing intake, orientation, crisis stabilization, service bridging and mental health and substance use assessments,
 - b. identifying primary issues and stage of change; collaboratively planning treatment goals and action plans with the client,
 - c. ensuring that treatment and action plans are implemented and needed services are in place in as much as the client agrees to such services,
